## Residential

Flint Odyssey House is a residential treatment facility that provides client-centered substance abuse and mental health treatment for men, women, couples, parenting women and men, and families. This therapeutic community uses treatment methods that are based on social learning theory blended with behavioral modification, cognitive restructuring, insight-orientated therapy, and collective recovery.

## Adult Outpatient

Flint Odyssey House's outpatient services are for people with substance use disorders (SUD) or dual diagnoses who do not require medical detoxification or 24-hour supervision. We offer day treatment, intensive outpatient and outpatient services. The program is designed to help establish supports, facilitate relapse management, and instill coping strategies. Our programs are alternatives to

inpatient and residential treatment.

### Recovery Housing

Transitioning back into everyday life after facing addiction and SUDs can be overwhelming. Odyssey Village provides a number of safe, structured therapeutic recovery housing options that support a lifestyle of lasting recovery. Our governing principle is "self-help and mutual self-help," where each resident assumes primary responsibility for their own recovery, as well as the recovery of their peers. Residents are

offered up to twelve months of residential assistance.

### Detox

For the addicted, the fear and the effects of withdrawal following an abrupt discontinuance of alcohol, opioids, or other addictive substances is often the barrier to learning how to live a clean and sober life. At Flint Odyssey House, we offer a comprehensive, compassionate approach to detox that addresses all aspects of physical, mental, and emotional health. We provide both clinically and medically monitored

24/7 care, utilizing over-the counter medications and short-term use of prescriptions to help alleviate potentially

dangerous side effects, as well as reduce cravings. As withdrawal symptoms begin, our staff provides guidance and support to keep clients comfortable. We also counsel and recommend the next-steps for sustained recovery. The length of stay will vary from two to five days based on medical necessity.
